

## **Health & Safety Policy and Procedure**

### **1 Scope**

The Society of Forensic Interviewers (SoFI) currently has no employees, and does not conduct meetings or any other business with members or third parties at their registered address. Therefore there is no current Health & Safety Policy in place.

### **2 Accredited Trainers**

Accredited Trainers are not employed by SoFI and therefore SoFI has no legal obligations under the Health & Safety at Work etc Act 1974.

However, all Accredited Trainers must ensure they are familiar with the Health & Safety policies and procedures in respect of any venue where they provide a SoFI Accredited course. They must also ensure that students are informed of the appropriate aspects of these policies and procedures as appropriate.

### **3 Review**

This policy will be reviewed annually, or at the time the above situation should change, and will be revised as necessary
